fyi

The registration for AltEn LLC was activated today - the company has been notified.

**Subject:** RE: AltEn Ethanol Facility

I'm sorry. I meant did they give AltEn a date of completion for the review and if so what?

Hi Pat,

HQ's has followed up with AltEn in regard to their application status.  
Please let me know if you have any additional questions or concerns.

Thanks.

LaTonya –

Any more sense of where this is in the process or when Region 7 believes the review will complete? AltEn appears concerned that the contractors working on this are not moving it along very quickly and that the facility may have to therefore suspend production.

Pat

**Importance:** High

LaTonya –

I understand that this might already be an issue that Karl and Josh Svaty are aware of but I wanted to flag it as well.

I understand that AltEn LLC, which is operating an ethanol refinery in Mead Nebraska, is currently awaiting the approval of their Part 80 RINs by the EPA. They just received their Part 79 confirmation today. Unfortunately AltEn is facing a storage crunch and would have to shut down ethanol production if the Part 80 of the EPA RIN application isn't approved by January 28<sup>th</sup>.

Can you help me determine where this application is in the process and when it is currently anticipated to be finished?

Thanks,  
Pat
